

Control your PC from anywhere you want!

The perfect remote control for your Server.

Peppercon LARA eco

- Allows KVM access to any connected computer via Internet
- Total access under any OS, in BIOS mode, during boot, at Blue Screens
- Secure against unauthorised access through certificate and encryption
- No additional software necessary
- Real Power Management possible through optional IPM module

The new KVM IP Extender LARA eco amazes users through its easy handling.

It belongs to the smallest devices of its kind and still offers a complete remote management solution with a wide range of features.

Thanks to Peppercon's approved KVM IP technology a fast transmission of all keyboard, video and mouse signals is guaranteed, in fact in highest video quality.

PEPPERCON

LARA eco
